

SPENCER CREEK

Animal Hospital

NEWSLETTER

WWW.SPENCERCREEKANIMALHOSPITAL.COM

Welcome to Spencer Creek Animal Hospital. We would like to reintroduce ourselves as we grow and expand to provide a state-of-the-art animal hospital to best serve our clients and community.

When you bring your pet to Spencer Creek, we want you to feel at home. With a family-oriented staff, we work together as a team, to bring passion and compassion to each and every client. We want you to feel comfortable with trust and understanding during any appointment, scheduled procedure, or continued care for your pet.

We are a family owned and operated hospital established in 2002. Designed by owner, Dr. Angela Whelan, she strove to be able to provide individualized care to all patients. To date, Dr. Whelan continues to evolve with continuing education delving into rehabilitation, including acupuncture, and working with exotics to be able to offer clients a wider range of care.

**Full Service Companion
Animal Practice
Including Exotics**

**Independently Owned
and Operated**

Vaccinations, Surgery,
Dentals**

**Integrative Medicine,
Acupuncture,
Water Treadmill,
Rehabilitation & Fitness**

**Mobile Visits and House
Calls**

**Collaborative Team
Approach**

**Quality and
Individualized Client
and Patient Care**

Since the beginning of 2023 our facility has been undergoing renovations. Behind all the noise there is 5,000 square feet of space we will be adding to the practice, including additional exam rooms, segregated treatment areas for dogs and cats/exotics, a second surgical suite, dental suite and dental radiography, a room designed for privacy and intimacy for end-of-life appointments, and a rehabilitation and fitness facility. In addition to routine examinations, vaccination, dentistry, surgeries and exotic pet appointments, we will be offering integrative medicine, including acupuncture, massage, water treadmill, general fitness and rehabilitation.

In addition to our renovations, we have added mobile veterinary services. This involves Dr. Mills coming to you, with a technician, if necessary, for an in-home exam. Perfect for clients who are unable to make it to the practice, or would prefer to have their pet seen in the comfort of their own home.

With the growth of the practice space and services, our team has been growing also! We welcome three new veterinarians, Dr. Laura Bond, Dr. Kristyne Smith and Dr. Amanda Santarossa, along with new technicians, assistants and administrative support. Each and every team member brings their unique backgrounds, special interests and experience, to be able to provide the best care for you and your pet. Check out their bios on our website. Your support and understanding is appreciated as our new team members learn our protocols and clientele!

As always, our team continues to educate ourselves to stay up to date with the newest diets, products, medical services and protocols, to provide the best care we can for your pet!

We all look forward to the future with you as we continue to evolve daily to better assist you and your pets. We would like you to feel like you are an extension of our family here at Spencer Creek and our doors are always open!

The Spencer Creek Team
